## The NEW Intelligent Feeder System Designed for Maximum Productivity Assembles, Accumulates, and Folds Personalized Mail

- ✓ All “Robust” Servo driven
- ✓ 4 Plate Folder System with Newly Designed Polyurethane Rollers
- ✓ Advanced Monitor Screen for Read and Setup of Jobs
- ✓ Processing Speeds at 2 page sets = 20K per hour
- ✓ Runs on line with Conventional Inserting Systems or Standalone with Conveyor Output
- ✓ Intelligent Reading or Batch Counting  
OMR – 2D – 3 of 9 – 128 and 2 of 5 interleaved
- ✓ 1-12 Sheets letter fold, 1-20 sheets half fold
- ✓ High Capacity Autoloader with Vacuum Shuttle Feed (approx. 2,000 sheets)
- ✓ Option- Dual Collector System for Subset Inserting
- ✓ Double Detect Monitor and Sensors

The New **HURRICANE** Feeder/Accumulator/Folder is the most Innovative Feeder system to appear in the Intelligent Document workplace in years.

The new “Ground-Breaking” technology using a knife folder to create the first fold makes the **HURRICANE** the most unique design in the Finishing marketplace. The **HURRICANE** is a patented new concept for feeding/accumulating/folding documents. This machine surpasses any previous or current predecessors, with its ease of setup and no fold roller adjustment needed for feeding of 1- 12 sheets in letter fold, and 1- 20 sheets in half fold. The **HURRICANE** will accomplish speeds of 20,000 two-page documents per hour!

Intelligent reading and batch count capability... “You Have It Covered”!

Operators find this machine easy operate day after day with practically no make ready time! ...no speeds changes to accomplish, no folder Roller adjustments, 4 plate folder for practically any fold, and it will run off-line or in-line with Profold’s **BARRACUDA** inserter or your existing inserter.

## **SPECIFICATIONS**

**Speed:** Up to 20,000 2-page sets per hour

**Fold Capability:** 1-12 Sheets – letter fold, 1-20 Sheets – Half fold.

**Minimum size:** 7" x 7"

**Maximum size:** 11" x 17"

**Paper weight:** 20-80 lb. (Not all paper weights are capable of max accumulation fold capability)

**Fold types:** "C", "Z", "V", and Double Parallel

**Dimensions:** 53" long – 53" wide

**Noise level:** 76db

**Electrical:** 208-230 VAC Single Phase - 20 amp service, 120 VAC, 20 amp service

**Weight:** 300 lbs

# "HURRICANE"

## Intelligent Feeder System

## **Benefits of Choosing the Hurricane**

Fast Return on Investment

Integrates Easily to Existing Inserters

Easy to Operate

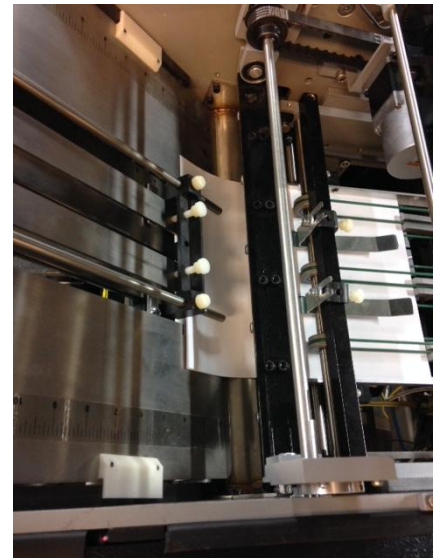

Little to no Maintenance Required

Larger Accumulation of Sets

No Adjustments to Feed Variable Set Documents

Consistent Operation Without Readjusting for Thin or Thick Sets

Designed for Maximum Productivity: 24 hours, seven days a week production
